Twin English Centre (Alpha College) - Theory and Practice of CLIL [APH-CLI]

Lokalizacja

Dublin to miasto bogate w historię i kulturę. Od wieków było centrum nauki - to tu, w złotej epoce chrześcijaństwa mnisi produkowali święte manuskrypty w łacinie i grece, jak choćby piękną "Księgę z Kells". Od czasów Wikingów, podróżni przybywali na tutejsze uniwersytety. To miasto, które szczerzy się także tym, że zamieszkiwało go aż 5 noblistów z dziedziny literatury. W dzisiejszych czasach to również siedziba takich korporacji jak Facebook, Amazon czy Google. Kilkakrotnie zdobywało też tytuł "Najprzyjaźniejszego miasta świata".

Nasza szkoła zlokalizowana jest w centrum Dublina, 5 minut od "Spire" - punktu centralnego miasta. Zajmujemy piękny, odnowiony budynek w gregoriańskim stylu. Na terenie szkoły studenci mogą korzystać ze wszystkich udogodnień: biblioteki, sal naukowych, podręczników i materiałów pomocniczych, pokojów studenckich, Internetu (w tym Wi-Fi) i komputerów studenckich. W budynku jest także kafejka studencka, w której można codziennie zakupić ciepłe i zimne napije oraz przekąski.

Program szkolenia

COURSE DESCRIPTION:

This is a practical, hands-on, participative course. Our course aims to share international best practice techniques and is developed for teachers who need to deliver content lessons in English. Our course delivery is a blend of lectures and practical activities based on CLIL methodology. Throughout the course, we encourage participants to reflect on their own practice, consider alternative practices and try out a variety of classroom activities through lesson planning, workshops and presentations. This course is of significant benefit to subject teachers and teachers of English with up to 2 years' experience in the CLIL environment and who need currently, or in the future, to deliver content lessons in English and those wish to share ideas

on best practice methodologies with colleagues from across Europe thereby improving the overall approach to CLIL Teaching in their schools and, as a result, the learner outcomes for their students.

This course is also suitable for trainers who are at the beginning of their CLIL training careers.

COURSE OBJECTIVES:

The objectives of this 2-week course on the Theory and Practice of CLIL are:

- to familiarise participants with key concepts and issues in CLIL and to share international best practice techniques as applied in today's school environment
- to help develop their skills in teaching subjects through English
- to examine the impact on teaching of recent pedagogical developments including developments in classroom technology
- to cover a variety of school subjects including geography, history, science and art with a focus on methods of making the subjects accessible to learners through English
- to examine the theoretical principles underpinning CLIL in such a way that they will be applicable to practice at primary and secondary level
- to provide opportunities for improved methodology and creativity to help participants increase their student engagement and retention on their return to their own schools
- to establish contacts and share information with teachers from a variety of European backgrounds and facilitate future networking among these professionals

By achieving these objectives we aim to assist schools in addressing identified needs as outlined in their European Development Plan and to re-inforce the capacities and international scope of the participating organisations.
