

Dear diary....

24.05.2017

After this weekend, as usual, it was hard to gather in the morning to school. The lesson - to my surprise - flew very quickly. 😊 I went to train at the club after noon. Before class coach asked me into his office and handed me a call to the team of juniors under the age of 17. My surprise and joy was so great that I had to sit down with shock. I went to practice full of desire to work even harder. After training, I shared this great news with family and friends.

25.05.2017

After a sleepless night of experience, lessons were long on forever. I was just thinking about today's training and vocation. Training went very calm at the very beginning there were technical exercises and in the end match. It was during the match I felt a strong pain in the calf. After training, I went home by doing constant activities or lessons, swimming and watched the show. The pain was gone so I went to sleep.

26.05.2017

I woke up very early in the morning because of extreme pain in my calf, which was swollen and livid. After consultation with my dad we went to the doctor and he directed us to the X-ray. All the time I was hoping that I'm okay.....I could not bear the thought that I won't go to training camp which is my lifetime opportunity to a great career

27.05.2017

ME AND MY DAD ARE IN THE HOSPITAL. WE ARE WAITING FOR THE RESULTS OF X-RAYS, I AM VERY TENSE AND NERVOUS. THE DOCTOR'S DIAGNOSIS IS FRIGHTENING - RAPTURE OF ANKLE AND TWO-MONTH PAUSE IN TRAINING. AS THEY SAY IN THE JARGON OF FOOTBALL "FROM HEAVEN TO HELL."

28.05- 01.08.17

Treatment and rehabilitation went very smoothly. Sitting at home for two months it was a terrible experience. I could return to training in August.

12.08.2017

After the summer break I can train again! Hooray!!!! The entire time I hope to a next call to the Polish national team.

15.09.2017

I haven't wrote in my diary since the beginning of the school year because the intensity of training and classes were taking me all of my time However, I want to highlight in the pages of my diary a very important event, I got another calling for grouping juniors U-17. Through hard work and perseverance dreams come true..
